

FIRST AID FOR MENTAL HEALTH TRAINING COURSE

RQF Level 2 Award (England, N Ireland and Wales)

Qualification title: FAA Level 3 Award in Supervising First Aid for Mental Health (RQF) Code: 603/3770/9

Unit title: Supervising First Aid for Mental Health Unit code: L/617/2920

Each year approximately 1 in 4 people in the UK will experience a mental health condition and at least 1 in 6 employees experience common mental health problems in the workplace. Research has shown that work is the biggest cause of stress which can stop people performing at their best. Mental health conditions are often hidden due to stigma and fear of discrimination and research has shown that a culture of fear and silence around mental health is costly to employers. The HSE guidance 'First aid needs assessment' refers to mental health in the workplace. This 12-hour qualification provides learners with the knowledge to recognise a wide range of mental health conditions and learn about the support/therapy provided by professional healthcare providers. They will know how to start a supportive conversation and when and how to signpost a person to seek appropriate professional help. Learners will recognise and manage stress and understand the impact of substance abuse. Learners will learn about the first aid action plan for mental health, be able to put it in place and understand how to implement a positive mental health culture in the workplace.

Duration

A minimum of 12 hours spread over at least two days. Ideally, the course should be run over two consecutive days, but must be completed within 6 weeks of starting the course, with each training session a minimum of two hours.
